Welcome to the Canadian Coastal Collection created and manufactured by Precision Custom Cabins. Ever wonder where your guests or family will stay while visiting the lake? Our carefully designed cabins provide stylish retreats for any lake house taking into account comfort, space, and of course outdoor living.

Whether you need additional space or simply a quiet retreat, Precision Custom Cabins offers layouts centered around functionality and style. Our Canadian Coastal Collection offers a variety of standard features that will be sure to make you feel like you are “glamping” in a posh resort when in reality you are at your own private oasis on the lake.

If your cabin requires even more features than our standard offerings, then our custom features will really show you the Canadian Coastal Collection has it all. We are able to customize each any cabin to fit your lifestyle and environment. From solar panels and lighting to interior décor and design, Precision Custom Cabins will impress even your non-camping lake guests.

Your customized cabin is closer than you have ever imagined. Take back your space, show your guests what to expect when they arrive at the lake. You may just have long term residents once they experience a Precision Custom Cabin.

*Comfort and
tranquility
await*

Frontier
